

# CERTIFICATION AND LICENSING PREPARATION

## LABORATORY TECHNICIAN - PHLEBOTOMY

Phlebotomy classes (LTE 101 and LTE 102) are listed in the class schedule under the Laboratory Technician heading. These courses provide students with knowledge and skills necessary to perform the collection, identification and preservation of specimens as applied to venipuncture techniques.

Phlebotomists are trained to collect blood specimens by safely performing skin puncture or venipuncture procedures on patients of all ages. They are required to adhere to strict policies and safety precautions designed to provide patient protection and comfort, and to assure safe handling of specimens throughout the collection process.

### Required Courses

Course	Title	Units
LTE 101	Fundamental Phlebotomy	4
LTE 102	Applied Phlebotomy	4
