

# WNC Library Re-Imagined

Western Nevada College's Library is transforming to better meet student and community needs!

Learn how you can become a part of this exciting project!

The WNC Library features expansive views of Carson City with over 22,000 square feet of space for students and community use! Because **today's students are engaged through a variety of responsive and technological resources**, WNC is updating the library to create a diverse environment that provides many options that will support students development as they gain critical employment skills. The library will also feature spaces for community use!

The need for an updated library was established through recent community and campus surveys and feedback forums. From this process, we found that students feel that the library does not currently meet their learning requirements. Students consistently asked for a more flexible, technical and usable environment.

As the rhythm of study and work habits change; success requires collaboration, idea-sharing and innovation. **The WNC library is evolving to meet these critical student and community needs!**

**The new library will provide targeted, holistic support for students**, Including varied work spaces, flexible furniture, a variety of technology and more faculty and tutoring supporting than ever!

With a flexible and welcoming environment, the remodel will support students from diverse populations, fostering positive connections and increased engagement between students and the college. This environment allows for active, collaborative learning and brings students and faculty together outside of the traditional classroom environment. Students who develop a positive relationship with their college and form positive associations with the campus are more likely to stay in their current classes and enroll in subsequent classes, positively impacting WNC course completion rates and fall to fall retention rates.

**Get involved and support the institution that will provide our future work force!**

During this exciting transition, WNC seeks community support.

Projects within the library range from small, group study and collaboration area transformations to larger-scale main floor transformations. Call 775 445 3239 to find out how you, your family or your business can be recognized within the library for contributing to this important project.

**The new, WNC library will offer:**

Quiet Group Study rooms with comfortable and adjustable seating

Animated, noisy group collaboration/debate areas featuring ceiling to floor whiteboards

Glass-enclosed brainstorming areas

A larger, community meeting room with flexible tables, presentation equipment and computer access

Media:scape technology areas for preparing and practicing presentations

Coffee and Snack Bar and seating area

Upgraded WiFi and re-charging stations

Laptop computer check-out

**The new, WNC Library will become the hub of campus, supporting student success at every turn.**
