Students that plan to obtain a degree or certificate of achievement will need to complete English and Math requirements. Students will meet with an academic advisor to ensure proper placement into English and Math courses based on review of placement options and goals.

English and Math placement at WNC is determined by a combination of high school transcripts, ACT/SAT scores, AP scores, Accuplacer and/or the Guided Self Placement tool.

There are multiple course options for each English and Math placement level. The English and Math course(s) taken will vary based on the intended program of study. Please meet with an academic advisor for further information.
